

#### Infrared Remote Control **Receiver Module** Mob:18903054065 QQ 2462655096

# IRM-H6XX/TR2 Series

#### **Features**

- Standard protection ability against EMI.
- · Circular lens to improve the receive characteristic.
- · Line-up for various center carrier frequencies.
- · Low voltage and low power consumption.
- · High immunity against ambient light.
- · Photodiode with integrated circuit.
- TTL and CMOS compatibility.
- · Long reception distance.
- · High sensitivity.
- Suitable min. burst length 10 pulses/burst.
- Pb free and RoHS compliant

#### Pin Configuration

- 1. GND
- 2. GND
- 3. OUT
- 4. Vcc

#### **Descriptions**

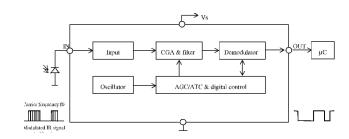

The device is miniature SMD type infrared remote control system receiver that has been developed and designed by utilizing the most updated IC technology.

The PIN diode and preamplifier are assembled on lead frame, the epoxy package is designed as an IR filter. The demodulated output signal can directly be decoded by a microprocessor.

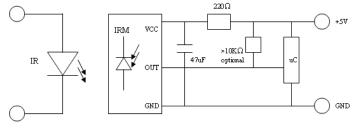

# **Applications**

- Light detecting portion of remote control
- AV instruments such as Audio, TV, VCR, CD, MD, etc.
- Home appliances such as Air-conditioner, Fan, etc.
- The other equipments with wireless remote control.
- CATV set top boxes
- Multi-media Equipment

# **Block Diagram**

#### **Application Circuit**

RC Filter should be connected closely between Vcc pin and GND pin.

<sup>\*1 :</sup> The ray receiving surface at a vertex and relation to the ray axis in the range of  $\theta$  = 0° and  $\theta$  = 45°.

<sup>\*2 :</sup> At a distance of 30cm from the pulse signal source.

<sup>\*3:</sup> Refer to Test Method.

### IRM-H6XX/TR2 Series

#### **Test Method**

The specified electro-optical characteristic is satisfied under the following Conditions at the controllable distance.

- 1. Measurement place
  - A place that is nothing of extreme light reflected in the room.
- 2. External light

Project the light of ordinary white fluorescent lamps which are not high Frequency lamps and must be less then 10 Lux at the module surface. (Ee 10Lux)

3. Standard transmitter

A transmitter whose output is so adjusted as to Vo=400mVp-p and the output Wave form shown in Fig.-1. According to the measurement method shown in Fig.-2 the standard transmitter is specified. However, the infrared photodiode to be used for the transmitter should be  $\lambda p=940$ nm,  $\Delta \lambda=50$ nm. Also, photodiode is used of PD438B (Vr=5V). (Standard light / Light source temperature 2856°K).

4. Measuring system According to the measuring system shown in Fig.-3

## IRM-H6XX/TR2 Series

#### Recommended method of storage

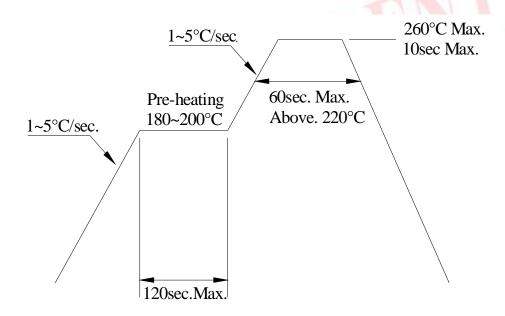

The following are general recommendations for moisture sensitive level (MSL) 4 storage and use:

- 1. Shelf life in sealed bag from the bag seal date: 12 months at < 40 °C and < 90% relative humidity (RH)
- 2. After bag is opened, devices that will be subjected to reflow solder or other high temperature process must mounted within 72 hours of factory conditions < 30 °C/60%RH.
- 3. If the moisture absorbent material (silica gel) has faded away or the IRM has exceeded the storage time. Baking treatment is required, refer to IPC/JEDEC J-STD-033 for bake procedure or recommend the conditions: 60±5°C for 96 hours.

#### **ESD Precaution**

Proper storage and handing procedures should be followed to prevent ESD damage to the devices especially when they are removed from the Anti-static bag. Electro-Static Sensitive Devices warning labels are on the packing.

## **Solder Reflow Temperature Profile**

#### Note:

**Revision** 

- 1. Reflow soldering should not be done more than two times.
- 2. When soldering, do not put stress on the IRM device during heating.
- 3. After soldering, do not warp the circuit board.

#### **DISCLAIMER**

- 1. Above specification may be changed without notice. EVERLIGHT will reserve authority on material change for above specification.
- 2. When using this product, please observe the absolute maximum ratings and the instructions for use outlined in these specification sheets. EVERLIGHT assumes no responsibility for any damage resulting from use of the product which does not comply with the absolute maximum ratings and the instructions included in these specification sheets.
- 3. These specification sheets include materials protected under copyright of EVERLIGHT. Reproduction in any form is prohibited without the specific consent of EVERLIGHT.
